Educate • Inspire • Empower

Who We Are?

We are everyday Americans who are concerned about the direction that our country has been headed for the last few years. We are tired of politicians who don't read the bills they sign, tired of big government growth, and tired of reckless government spending. We stand united against the inevitable taxes to pay for it all because we do not want our children and our grandchildren to pay the bills for what our 'non-representing representatives' are doing today.

Our grassroots volunteers have decided that we can no longer sit quietly at home and 'hope' for our constitutional republic to be restored to the core principles framed by our great nation's founding fathers. Most of us have never been political activists. But, we believe that if we don't take action now, future generations will not enjoy the prosperity and the freedoms that we hold dear.

We are taking action through patriotic rallies to express our ongoing concerns and to listen to ideas about possible solutions. We are taking action by calling, writing, emailing, and faxing our representatives so that they know the overwhelming will of the people for whom they work. The silent majority is no longer silent.

*"When governments fear the people, there is liberty.
When the people fear the government, there is tyranny."*

-- Thomas Jefferson
